

Unparalleled Safety

Discover the Exceptional Features

Experience the epitome of safety with Olo Kick Scooter, engineered to deliver not only thrilling rides but also a sense of security like no other.

Designed with precision, Olo Kick Scooter's 14-inch front tire sets a new standard, ensuring the utmost resilience and stability. The intelligently positioned tire of the Olo Kick Scooter provides more than just support. It offers a remarkably smooth and comfortable maneuvering experience, allowing to navigate turns and congested areas with ease and confidence.

We understand that safety is paramount, which is why the Olo Kick Scooter goes the extra mile. With its seamless acceleration and the incorporation of an additional brake mechanism, this remarkable scooter puts safety at the forefront.

Ride to Sustainable Cities

Olo Mobility's Commitment to Sustainability

At Olo Mobility, sustainability drives us. We are dedicated to promoting eco-friendly transportation solution to the creation of sustainable cities. From conserving natural resources to reducing energy consumption throughout our entire production and shipping process, we strive to make a positive impact.

To achieve our net-zero goals, we proactively take measures to offset carbon emissions and adhere to the GHG protocol. We actively minimize our carbon footprint by using low-carbon materials, optimizing energy efficiency and implementing effective recycling systems.

In pursuit of zero waste, we ensure a minimum 5-year lifespan and comprehensive warranty on all parts, guaranteeing durability and reliability.

By the Numbers

| | |
|------------------------|---|
| Range: | Up to 65 km |
| Mechanical Durability: | 5 Years |
| Tires: | 14" Front & 10" Rear |
| Brakes: | 2 Mechanical (front and rear) and 1 Electric (motor) |
| Rated (Max) Power: | 350 W (650 W) |
| Rated Voltage: | 48 V |
| Battery: | High Capacity and Swappable |
| Maximum Slope: | 22% |
| Complying Standards: | EN 17128, e-KFV, ASTM 2641 |
| Other: | Built-in IoT, Integrated Steering Stabilizer, High-Tech MCU Algorithm, Regenerative Braking |

Our Innovation Hub

Fostering Knowledge and Cutting-Edge Solutions

At Olo Mobility, we foster innovation through in-house R&D. Our engineers develop mechanical, electrical, and software components in our eco-conscious factory. Experience the result: customer-centered products and optimal solutions that redefine mobility.

The Expert Team

Powering Olo Mobility's Innovation

Our experienced team, with over 100 years of combined expertise in electronic, mechanical, and mechatronic engineering, drives Olo Mobility's innovation. Together, we redefine mobility with cutting-edge solutions.

Embracing Diversity

Our Commitment at Olo Mobility

At Olo Mobility, we wholeheartedly embrace the value of diversity. We are deeply committed to fostering a workforce that is inclusive and diverse in terms of gender, nationality, and culture.

Sustainable cities are not merely a dream

Reduce carbon and water footprint with Olo Mobility's next-gen software, integrated hardware.

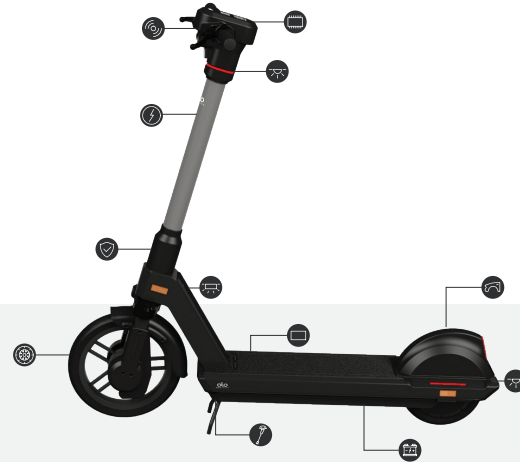

Experience simulation-based design, cutting-edge technology and uncompromised safety.

Limitless Possibilities

Embrace the freedom to create a truly unique Olo Kick Scooter that reflects your style. With exceptional design, the customization options are endless. From vibrant fluorescent paints to a diverse range of colors, make a statement that stands out from the crowd.

Engineered to be Best

- Integrated IoT
- Hidden Electric and Brake Cables
- Steering Stabilizer for Safer Ride
- Extra Large Front Tyres
- Wide Screen LCD Display
- Swappable High-Capacity Battery
- Led Ambiance Lightings
- Side Reflectors
- Large Deck
- Reinforced Rear Fender
- Dual Kickstand

Our Story

Redefining Short-Distance Travel

In a world where the average daily travel distance per person is less than 5 kilometers, why not opt for a nature-friendly, and time-saving solution? This very question laid the foundation for Olo Mobility's remarkable journey.

At Olo Mobility, we believe in offering an alternative that embraces the beauty of nature, fuels the sense of adventure, and maximizes efficiency. Our mission is to revolutionize urban transportation, providing a sustainable and exhilarating experience for short-distances.
